SUMMARY

Business Intelligence Analyst with 2+ years of experience developing dashboards, data pipelines, and KPI frameworks that drive decision-making for cross-functional stakeholders. Skilled in SQL, Python, PowerBI, and Alteryx, with hands-on experience in data warehouse migration, data modeling, and requirements documentation. Known for translating complex datasets into clear, actionable narratives for both technical and non-technical audiences.

SKILLS

Analytics & BI: SQL, Power BI, Excel (advanced reporting), PowerPoint, Dashboarding, Looker, Data Storytelling, Root-Cause Analysis, Data Quality, Data Governance, Requirements Documentation, Operational Reporting, Metrics Tracking

Automation & Data: Alteryx, Data Cleansing Reconciliations, Data Warehouse Requirements Gathering, Data Migration Support

Programming/Tools: Python, Java, GitHub, JIRA, Agile Development, AWS

Languages: English (Native), Mandarin Chinese (Native)

Certifications: AWS Cloud Practitioner; ISSA Certified Personal Trainer; Red Cross CPR/AED

WORK EXPERIENCE

Morgan Stanley **New York, NY**

Business Analyst Associate, Project Manager *Jul 2023 - Jun 2025*

- Designed and deployed interactive PowerBI dashboards tracking financial KPIs across three cross-functional teams – Capital, Treasury, and Regulatory Financial Reporting – enabling data-driven decision-making for finance leadership
- Partnered with users to translate complex business requirements into an integrated Finance Data Warehouse, contributing to data modeling decisions and producing requirements documentation and acceptance criteria to support build and validation
- Defined KPIs for data warehouse adoption and communicated migration progress to cross functional finance stakeholders, leveraging PowerPoint, Excel, and JIRA to drive alignment on monthly milestones and release readiness
- Created automated monthly reconciliations in Alteryx to validate accuracy against existing sources and the general ledger
- Established data governance standards including authoritative source mapping and standardized naming conventions and wrote SQL queries to identify and validate data variations between legacy and migrated sources, reducing reporting errors and ensuring consistent downstream reporting across teams

Software Engineer, Technology Analyst Program

- Completed intensive 12-week training across full-stack development, systems design, and dev tooling in SQL, Python, Java
- Designed and tested containerized apps using RESTful API's to simulate real-world enterprise systems under Agile environment, emphasizing testing, troubleshooting, and documentation of expected API behavior

Equinox **New York, NY**

Personal Trainer, Sales *Jun 2025 - Aug 2025*

- Conducted needs analyses and developed targeted training strategies for 4 clients, achieving 100% retention over a 3-month period by prioritizing measurable progress and consistent client experience
- Tracked client progress across strength and body composition metrics, delivering data-driven adjustments to training programs to ensure consistent, measurable improvement
- Converted 40% of assessment sessions into paid 6-session training packages, collaborating cross-functionally with sales and operations to streamline client onboarding through process improvements and clear client-facing communication

PricewaterhouseCoopers **San Francisco, CA**

Technology Consulting Intern *Jun 2023 - Jul 2023*

- Partnered with the technology team to oversee end-to-end client data migration from legacy systems, validating 99% data accuracy across sources to ensure completeness and alignment with business requirements
- Developed and presented a weekly risk tracker showing team performance and sprint capacity, proactively identifying and addressing potential roadblocks to improve project predictability and ensure on-time delivery
- Documented requirements, project roadmap, and timelines to improve stakeholder alignment, and reduce scope creep

EDUCATION

Northwestern University **Evanston, IL**

B.S. in Economics, Communication Studies, Computer Science Minor *September 2020 - June 2023*

Kellogg School of Management Financial Economics Certificate

- ***GPA:3.8/4.0*** | Dean's List: All Quarters | *National AP Scholar* | *GMAT: 750/800*
